WASHINGTON, May 8 .- America's dermination to feed the Swiss populaon, despite obstacles interposed by ermany, was made plain to-day by the State Department in giving out a communication to the American Minister at Berne declaring grain ships were on the way under naval convoy prepared to force passage through the submarine

The note was sent for publication in The note was sent for publication in Switzerland to relieve anxiety there as to the food supply. It disclosed that the United States decided to defy the submarine blockade after the German Government declined to guarantee safe passage for grain ships until three months time had expired in which to notify submarine commanders. The note reads: "Germany has semi-officially announced that her proffered safe conduct for United States ships en route to Cette for Swiss relief cannot be effective for three months, since it will take this for three months, since it will take this period to modify the existing orders to submarine commanders under which American ships carrying wheat to Cette for Swiss relief are to be torpedoed.

In this new and exclusive Saks-made Golf Suit

There'll be nothing better on the course this season than this new stroke in the tailoring of golf suits.

Designed by a veteran at the ancient game, it has many a wrinkle which only the experienced golfer could put into it.

Note the vent at the shoulder to give absolute freedom for a full swing.

Complying fully with the Government's request, we have conserved Wool in producing this new model, but in the masterful lines of this splendid suit the unusual initiative of our tailoring staff is fully evident.

With Trousers or Knickers - \$30 and \$35
